DETAILED ACTION

1. In an appeal conference, based on the newly available information of the new references recited on PTO-892, the arguments presented in the brief is persuasive. The rejections are dropped.

2. ***Reason for Allowance***

The following is an examiner's statement of reasons for allowance:

The newly available reference Sam et al. provided evidence that the process of making the key intermediate/starting material of formula IV at the time the invention was made is exclusively by formula II and III, therefore, the combination of claim 19 depend entirely on the subcombination of claim 1 for patentability. Therefore, support for the subcombination is considered found in the priority document. In addition, a search for the preparation of the key intermediate formula VI indicated that the employing of Pd catalyst was not available until after CA141:123572 i.e. applicants' invention. Therefore, no prior art was available for the Palladium catalyst, therefore, the rejections under 35 USC 103(a) based on Lensky is dropped. Claims 1-33 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Celia Chang whose telephone number is 571-272-0679. The examiner can normally be reached on Monday through Thursday from 8:30 am to 5:00 pm.
